<img src="images/bird.gif" alt="bird"
    width="100" height="100" />
There are around 10,000 living species
of birds that inhabit different ecosystems
from the Arctic to the Antarctic. Man
species undertake long distance annual
migrations, and many more perform shorter
irregular journeys.
```

RESULT

There are around 10,000 living species of birds that inhabit different ecosystems from the Arctic to the Antarctic. Many species undertake long distance annual migrations, and many more perform shorter irregular journeys.

Erstelle jedes Bild mit der selben Höhe und Breite mit welcher es auch auf der Webseite angezeigt wird.

Wir ein Bild mit falscher Breite oder Höhe ausgegeben wirkt es gequetscht.

Ein sehr kleines Bild wirkt verschwommen wenn es grösser ausgegeben wird.

  <img src="images/otters.gif"</pre>
       alt="Photograph of two sea otters
            floating in the water" />
  <br />
  <figcaption>Sea otters hold hands when
       they sleep so that they don't
       drift away from each other.
  </figcaption>
</figure>
```

RESULT

Sea otters hold hands when they sleep so they don't drift away from each other.

Das Element wird verwendet um Bilder auf einer Webseite anzuzeigen.

Mit dem src Attribut wird die Quelle des Bildes angegeben, mit dem alt Attribut wird der Inhalt beschrieben.

Das Bild wird immer in der Grösse und Breite gespeichert in welcher es auf der Webseite angezeigt wird.

Fotos werden als JPEGs oder PNGs gespeichert, Illustrationen oder Logos mit einfarbigen Flächen als GIFs.
